

VeriFit[®]

Respirator Fit Testing Kit Economical, Ready to use, and Disposable

- All-in-one single-use device
- OSHA compliant
- Ready to use
 - No parts to calibrate, warm up, sterilize, or clean
- Small and sleek design for easy handling
- Safe operation, no glass
- Small, integrated bellow pump
 - Provides optimum amount of smoke for fit testing
 - Minimizes risk of overexposure
- No additional components to attach, lose, or replace
 - No nebulizers, pumps, mixing jars, batteries, test masks, probes, or hoods
- Economical
 - One VeriFit test costs less than a single smoke tube

Each VeriFit Smoke Generator is a complete, safe, ready-to-use, fit testing kit!

The VeriFit[®] smoke generator provides fast, convenient, and economical respirator fit testing. The VeriFit's patented design integrates all components of traditional smoke test kits into one sleek single-use device. Its plastic construction eliminates danger from broken glass and its small, integrated bellows pump minimizes the risk of overexposure. VeriFit is highly economical — one complete VeriFit test is less than the cost of a single traditional smoke tube!
