

Exciting News!

On July 15, 2019, SKC Inc. acquired Colormetric Laboratories, Inc. (CLI).

SKC is excited to add CLI surface and dermal assessment and control tools to our highly respected, long-standing sampling solutions that help you maintain the health and safety of workers. SKC looks forward to continuing to provide the same great CLI products with excellent customer and technical support. Learn more about SKC Inc. at <https://www.skcinc.com/about>.

DECONtamination Solution for Aromatic Amines Cat. Nos. 769-1051, 769-1051D, and 769-1071

Cleaning/Decontamination

1. Wet area thoroughly with Cleaning/Developing Solution for Aromatic Amines Cat. No. 769-1041 or 769-1061. Use an abrasive pad if necessary to enhance penetration. Do not rinse before applying DECONtamination solution.
2. Spray the area with DECONtamination solution and allow it to react for at least 5 minutes. Rinse with water.
3. Recheck the area with Surface SWYPE Cat. No. 769-1021 to verify decontamination is complete. If contamination is still present, repeat Steps 1 and 2.
4. To decontaminate tools, mix 1 part DECONtamination solution with 3 parts cleaning/developing solution in a closed container. Let tools soak for approximately 5 minutes and rinse with water. Recheck with Surface SWYPE to verify decontamination is complete.

SKC Limited Warranty and Return Policy
